[PFI-57] [Raul] Expected product images are missing from underneath the main image

Created: 28/May/23 11:01 PM - Updated: 22/Jun/23 9:55 PM

Status:	Selected for Development
Project:	Proiect final ITFactory
Parent:	PFI-1 [Raul] Product page on demo.opencart.com (Epic)
Fix Version/s:	[Raul] ITF Final Project

Type:	Bug	**Priority:**	Medium
Reporter:	Raul Matiu	**Assignee:**	Raul Matiu
Resolution:	Unresolved	**Votes:**	0
Labels:	None		
Original Estimate:	Not Specified		
Remaining Estimate:	Not Specified		
Time Spent:	Not Specified		

Standard	
Preconditions:	user and password to login to demo.opencart.com Go to Products section and select one product
Severity:	Low
Steps to reproduce:	#check if the product image is displayed under the title on the left-side, along with alternate views of the product underneath it in smaller box image
Agile	
Sprint:	PFI Sprint 1

Description

Prerequisite: user and password to login to demo.opencart.com
Go to Products section and select one product

Steps to reproduce:
#check if the product image is displayed under the title on the left-side, along with alternate views of the product underneath it in smaller box image

Actual result: The product image displayed as main image, doesn`t appear underneath in smaller box image

Expected result: The Product images are correctly displayed and by clicking in the smaller box image row you select the main image of the product.

| *Standard*	
Preconditions:	user and password to login to demo.opencart.com Go to Products section and select one product
Severity:	Medium
Steps to reproduce:	#checking if there is an embossed Add to cart button, underneath the Quantity field #Successfully checked the Add to Cart button appearance #Typing in Quantity field 0 or value higher than 100, other type of characters (letters, ?, !, @, etc.) or letting the field unfiled and then clicking on the Add to Cart button should not change the status of the shopping cart.
Agile	
Sprint:	PFI Sprint 1

Description

prerequisite: user and password to login to demo.opencart.com
Go to Products section and select one product

steps to reproduce:
#checking if there is an embossed Add to cart button, underneath the Quantity field
#Successfully checked the Add to Cart button appearance
#Typing in Quantity field 0 or value higher than 100, other type of characters (letters, ?, !, @, etc.) or letting the field unfiled and then clicking on the Add to Cart button should not change the status of the shopping cart.

Actual result: Users may add more than 100pieces of product in the cart or when any type of characters are put in the quantity field, after clicking Add to cart a message of confirmation appears next to the cart
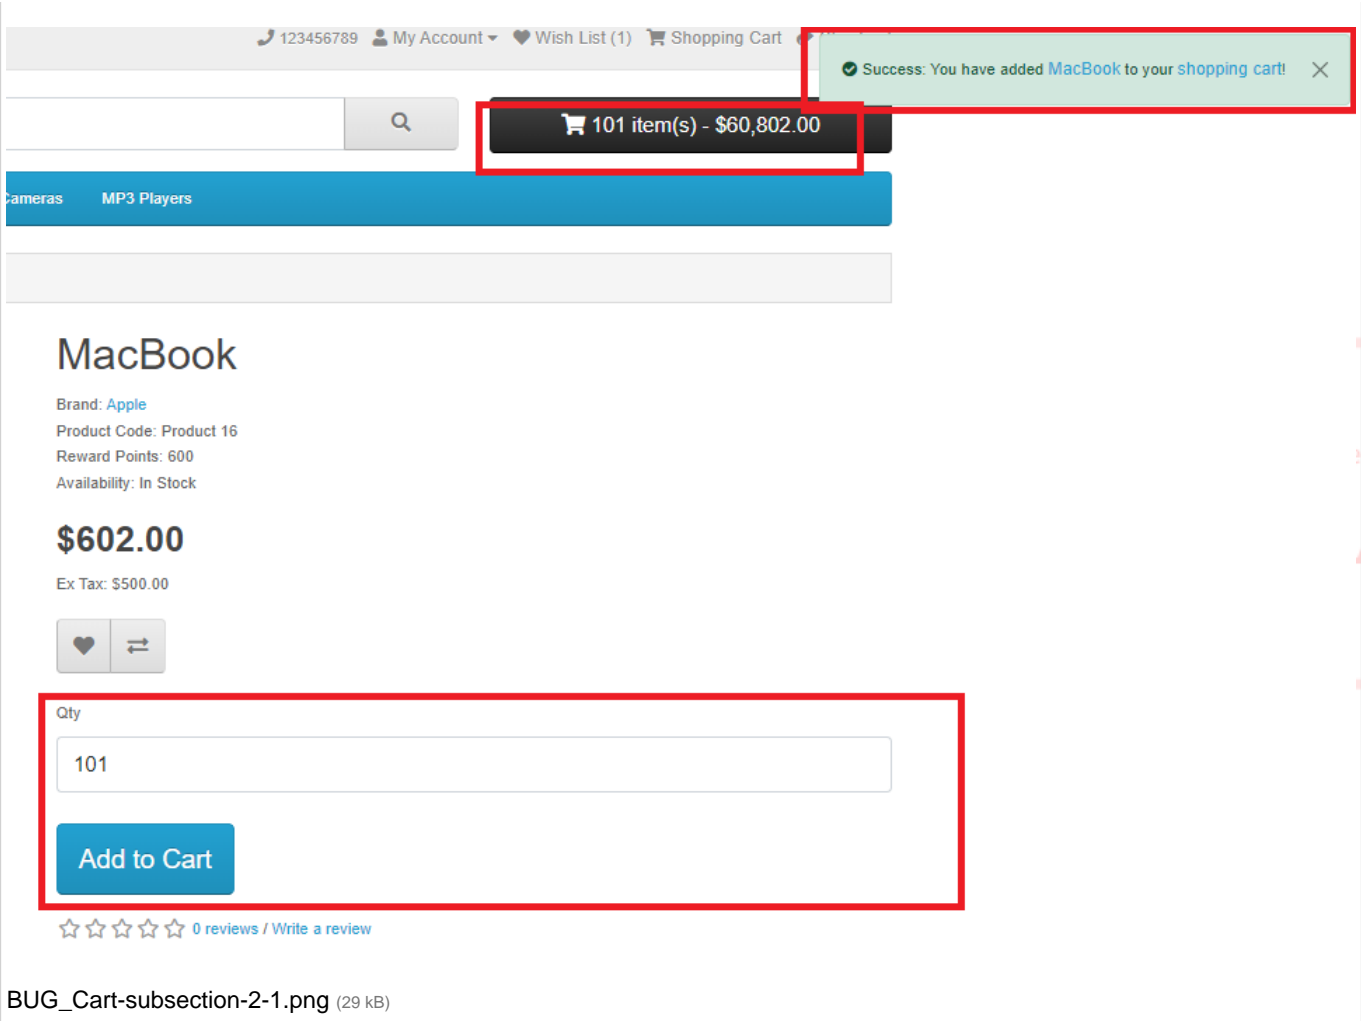

Expected result: The shopping cart status is not changed and no products are added to the cart. A warning message is written near the cart status.
